The customer's contact information is also used to get in touch with the visitor when necessary to verify the order. Demographic and profile data is also collected at our site. We use this data to tailor our visitor's experience at our site, showing them content that we think they might be interested in, and displaying the content according to their preferences. Credit card numbers are NEVER seen by us when the Secure Encryption Server is used by you to place your order. Our site uses a secure order form for customers to request information, products, and services. We collect visitor's contact information (like their email address), unique identifiers (like their mailing address and phone number we never keep or even an access to our clients credit card information, this is done via our merchant company fax, phone or e-mail), and demographic information (like their zip code).
